

**ANNUAL REPORT OF
CLUSTER DEVELOPMENT PROGRAMME
WEST JAINTIA HILLS CLUSTER
FINANCIAL YEAR 2023-24**

Turmeric focus crop

Message from CEO MBMA

It gives me immense pleasure to present the Annual Report of the Cluster Development Programme (CDP) for the year 2023–24. This report highlights not just the milestones achieved, but also the collaborative spirit and dedication of our teams, partners, and most importantly, the communities who are at the heart of our work.

As the designated Implementing Agency for the West Jaintia Hills Cluster, the Meghalaya Basin Management Agency (MBMA) has made significant strides in strengthening the horticulture value chain through targeted, cluster-based interventions. Our work this year has reflected the CDP's holistic vision of transforming production landscapes into resilient, market-driven ecosystems.

Warm regards,

Dr. Vijay Kumar D.

CEO

Meghalaya Basin Management Agency
(MBMA)

About the Cluster Development Programme (CDP)

To address the challenges and enhance the global competitiveness of the Indian horticulture sector, the Ministry of Agriculture and Farmers' Welfare (MoA & FW), Government of India, has launched the Cluster Development Programme (CDP). It is a central sector programme, implemented by the National Horticulture Board (NHB).

The CDP is designed to leverage the geographical specialisation of horticulture clusters and promote integrated and market-led development through interventions in pre-production & production, post-harvest & value addition, and logistics, branding and marketing.

Objectives

The main objectives of the programme are to:

- a) Address concerns of the horticulture value chain, from pre-production & production activity, post-harvest & value addition activity, and logistics, branding and marketing, in an integrated manner to accelerate competitiveness in domestic and export markets.
- b) Reduce harvest and post-harvest losses by developing/expanding/upgrading infrastructure for post-harvest handling of produce, value addition and developing market linkages.
- c) Facilitate the introduction of innovative technologies and practices to enhance the global competitiveness of focus cluster crops.
- d) Facilitate the dovetailing of resources, including the convergence of various government schemes, to entrench stakeholders in the global value-chains.
- e) Build stakeholder capacity and enhance farmers' income through cluster-specific interventions, including brand promotion.

Present Status of CDP in Meghalaya

The West Jaintia Hills cluster of Meghalaya was selected as one of the clusters for implementation of the programme. The focus crop for the cluster is Turmeric, as the region is home to the G.I. tagged Lakadong turmeric, famous for having the highest curcumin content.

Meghalaya Basin Management Agency (MBMA) is implementing the Cluster Development Programme under National Horticulture Board in West Jaintia Hills Cluster. The total cost of project is ₹ 52.33 crores and MBMA is the implementing agency for all the three verticals i.e

- Pre-production & Production,
- Post Harvest Management and Value addition and
- Logistics, Marketing and branding.

The vertical wise break-up of the project cost is as under:

- Pre- production & production – ₹ 18.93 crores
- Post Harvesting Management - ₹ 29.02 crores
- Logistics Marketing Branding - ₹ 4.38 crores

The Means of Finance for the project is as under:

- ₹ 24.88 crores as financial assistance under CDP.
- ₹ 20.92 crores as contribution by MBMA.
- ₹ 6.53 crores as contribution through LIFCOM

MBMA has received financial assistance for Rs 20.92 crores as contribution from State Govt towards this project. The State Govt has nominated LIFCOM (Livelihood Improvement Finance Company of Meghalaya) to support financial assistance to beneficiaries/CBOs/Entrepreneurs as contribution for Rs 6.53 crores towards the project.

The project is being implemented in Laskein & Thadlaskein Block for 4 yrs with 6,000 farmers to be benefitted. The projected objective is to increase incomes for farmers through increase in productivity and encouraged them to bring in more area under cultivation. Over the period of 4 years, the area under cultivation is proposed to increase by 1,000 Ha.

The Team

- Shri A.S.Suting – Deputy Project Director MBMA as Lead Promoter
- Shri D.Lamar - Adviser MBMA
- Shri M. Kharbani – General Manager MBMA
- Shri B L. Nongrum – State Project Manager CDP MBMA
- Shri N.Nath – Sr Manager Procurement
- Smti. M. Ramsdam – Asst Manager Biocontrol Lab
- Smti V.Lyngdoh – Asst Manager Tissue Culture
- Smti T. Shira – PA Tissue Culture
- Shri W. Talang- Asst Manager Agronomist
- Smti D. Kharlukhi – PA Agronomist

VERTICAL WISE INTERVENTIONS for FY 2023-24 are as under:

VERTICAL I – Pre production and Production

1. Area Expansion Under CDP

Under Vertical I pre-production and production, component - Area Expansion, the project selected 1000 registered farmers each possessing an area holding of 0.5 acres for the area expansion initiative.

The registered farmers received training on production technology of turmeric. The training sessions were conducted by the project staffs in their respective cluster. Under area expansion each farmer received 300 kg of seeds/rhizome. These seeds/rhizomes were intended for sowing in a new area of 0.5 acres.

a. Registration Of Farmers:

Farmers Registered under Cluster Development Programme under 2023-24

Plate 1 (A-D): Seed Inspection at various CBOs

c. Workshop on Supply of Seeds and Community Procurement

A workshop was organized with the aim of sensitizing and enhancing the capacities of Community Based Organizations (CBOs) involved in the project. The specific focus areas and objectives of the workshop were as follows:

1. Focus Areas:

- Sensitization of 22 CBOs on the supply of Lakadong turmeric seeds.
- Sensitization of 15 CBOs on the construction of pack houses.

2. Objectives:

- To enhance the understanding of community procurement processes among the CBOs.
- To build the capacity of the CBOs to ensure smoother and more efficient implementation of the project activities related to seed supply and infrastructure development.

3. Participation:

- A total of 54 participants attended the workshop, representing the various CBOs involved.

VERTICAL I – Pre production and Production

2. Promotion Of IPM And INM

Under this component of Vertical I, the project promoted the use of bio inputs to enhance the cultivation practices of turmeric. These bio inputs included **a) biofertilizers** like *Azospirillum* and Phosphate solubilizing bacteria and **b) biopesticides** like *Pseudomonas*, *Trichoderma* and *Metarhizium*. In Laskein C & RD Block, since the current cultivation methods were primarily traditional organic, the promoted inputs under IPM and INM were aligned with organic standards. By promoting these bio inputs and practices, the project aimed to enhance the sustainability and productivity of turmeric farming in Laskein C & RD Block, ensuring that the farming methods remained organic while improving overall yield and soil health. Farmers were also advised to use farmyard manure on their fields. This practice was recommended to help retain soil fertility and health, which would ultimately lead to increased production.

- Biofertilizers and Biofertilizers procured:**

Supplier	Item Description	Quantity Ordered
Central Agricultural University	<i>Pseudomonas fluorescens</i>	1000
	<i>Trichoderma viride</i>	1000
	<i>Metarhizium</i>	250
State Biological Control Laboratory	<i>Pseudomonas fluorescens</i>	1000
	<i>Trichoderma viride</i>	1000
	<i>Metarhizium</i>	250
	<i>Azospirillum lipoferum</i>	1000

3. Custom Hiring Centers

Custom Hiring Centers are units comprising sets of farm machinery and equipment available for hire by farmers. The use of CHCs is intended to reduce the unit cost of production by enhancing input use efficiency. By having access to modern machinery, farmers can improve their farming practices without the high costs associated with purchasing equipment.

4 Nos CHC were set up at Barato CHC, Laskein CHC, Mulieh CHC and Thadmuthlong CHC.

Fig: Mulieh CHC under the Cluster Development Programme

- Agricultural Machineries procured for the CHC**

Item Description	Quantity Ordered	UoM
Power Tiller VST Shakti 130 Di	8	Nos
Portable Power Spray Wegwan	8	Nos
Power Weeder Texas TX 701 TG	16	Nos
Brush Cutter Backpack 4 stroke Texas TX1437B with reaper, thread, cutting disc	10	Nos
Portable Water Pump Texas P50G48Q	4	Nos
Earth Auger 2 Stroke Texas EA2631A with 6" Bit & 8" Bit	4	Nos

- **Training of Operators on CHC and Agricultural Machineries**

A two days training on custom hiring centers and operation of agricultural machineries was conducted at Life Spice Cooperative Society, Laskein Village from the 23rd -24th April, 2024

Objectives:

1. To provide practical, hands-on training to operators from different villages
2. This training aimed to ensure that operators are well-equipped with the necessary skills to effectively use and maintain the equipment provided by the CHCs, thereby maximizing their utility and ensuring sustainable use.

Overall, the training program was designed to promote the efficient use of agricultural resources through the establishment of CHCs and to build the capacity of local operators to support these centres effectively.

Resource Person:

- Mr. Ved Prakash, Technical Adviser (MDS Agri Infrastructure)
- Mr. K. Ryntathiang, Sale Manager (Iaijop Enterprise)

Types of Farm Machineries demonstrated during the training:

1. Power Tiller VST Shakti 130 Di
2. Portable Power Spray Wegwan
3. Power weeder Texas TX 701 TG
4. Brush Cutter Backpack 4 stroke Texas TX1437B
5. Portable Water Pump Texas P50G48Q
6. Earth Auger 2 Stroke Texas EA2631A

Training Details:

Day 1: 51 participants

Day 2: 44 participants

Plate 5: Two days training on agricultural machineries held on 23rd April, 2024 (A) and 24th April, 2024 (B) at Life Spice Cooperative Society, Laskein, West Jaintia Hills District, Meghalaya (A-I)

- **Demonstration on Agricultural Machineries & Production Technology**

One day demonstration on agricultural machineries and production technology of Lakadong turmeric was carried out in the above-mentioned villages, from 25th April, 2024 to 29th April, 2024, conducted by the CDP staffs. The registered farmers from their respected villages attended the program along with the trained operators. The demonstration on the production technology of Lakadong turmeric was performed by the trained farmers who had attended the earlier trainings conducted by the CDP staffs. This was carried out to ensure that they have complied with the POPs as per the training. This was then followed by the demonstration on agricultural machineries by the trained operators in the mentioned Farmer's field. The farmers participated enthusiastically and were well equipped with operating the machines.

4. Capacity Building: Training & Exposure Visit

- **Training on the Production Technology of Turmeric**

Due to low production and productivity of the focus crop, the CDP has developed an Organic Production Technology as per the Package of Practises for Turmeric from ICAR NEH and NIPHM. The training was designed to capacitate farmers on the use of bio inputs like biopesticides and biofertilizers, field sanitation with regards to pest infected plants, raised bed preparation, competition of nutrients with their current method of traditional practice, importance of maintaining soil fertility with crop stubbles like maize and practices like green manuring.

The training conducted on the Production Technology of Lakadong Turmeric as under:

- **Training And Exposure Visit of the Project Staffs To NIPHM**

A three-day training program for officials of the MBMA (Meghalaya Basin Management Agency) CDP (Cluster Development Programme) was organized at the National Institute of Plant Health Management (NIPHM) in Hyderabad from December 19th to 21st, 2023. NIPHM is a premier national institute renowned for its expertise in plant health management, plant biosecurity, pesticides management, and related fields. This training was crucial as it aligned with the project's components, which include the establishment of a Bio Control Lab, Plant Health Clinic, implementation of IPM (Integrated Pest Management) and INM (Integrated Nutrient Management), and adherence to Good Agricultural Practices (GAP).

Plate 12 (A-D): Training and Exposure visit to NIPHM

VERTICAL I – Pre production and Production

5. Technology Dissemination through Demonstration

In response to the challenges of low productivity of Lakadong Turmeric, the Meghalaya Basin Management Agency (MBMA) has initiated a collaborative effort with the Life Spices Cooperative Society and Biosis Plants Pvt. Ltd. to conduct a field trial. This trial involves planting 500,000 Lakadong Turmeric tissue culture plants in Barato Village, covering an area of 10 hectares.

Plate 13 (A-D): Hardened Tissue Culture Plants ready for planting

Plate 14 (A-B): Land Preparation for TC Plants at Barato Village

VERTICAL 2 – Post Harvest Management and Value Addition

1. Pack House:

15 Community Based Organisation were selected and sanctioned ₹ 4,00,000/- each for Construction of Packhouse (9Mx6M). The CBOs are to follow Community Procurement in the construction of Packhouse. The details of selected CBOs are as under:

Sl No.	Name of the Organisation/ Farmers Collective	Type of Organisation	Block	Village
1	West Jaintia Hills Farmers Producer Company Ltd	Farmers Producer Organisation	Thadlaskein	Sanaro
2	Ieinskhem Spice Cooperative Society	Cooperative Society	Laskein	Mulieh
3	Iahluti SHG Lummuriap CMC	Self Help Group	Laskein	Lummuriap
4	Farmer Union Shangpung Pohshnong	Farmers Producer Organisation	Laskein	Shangpung Pohshnong
5	Iakyntulang SHG	Self Help Group	Laskein	Saphai
6	Farm Connect Development Society	Society Register	Laskein	Mooshrot
7	Iahluti Multipurpose Co-Operative Society Ltd.	Cooperative Society	Laskein	Iooksi Kyanmynsar Thlongmoo
8	Synroplang VO CMC Thadmuthlong A CMC	Village Organisation	Laskein	Thadmuthlong A
9	Sdangseinlang SHG	Self Help Group	Laskein	Kyndongtuber
10	Kyrchanlang SHG	Self Help Group	Laskein	Khonshnong
11	Barato IVCS	IVCS	Laskein	Barato
12	Kynhun Manbei CMC Sahsniang Saitthad	Village Organisation	Laskein	Sahsniang
13	Iurim Nongkynrih IVCS	IVCS	Laskein	Nongkynrih
14	Iakrehlang IVCS	IVCS	Laskein	Saphai
15	Shiruplang Mynska IVCS	IVCS	Laskein	Mynska

VERTICAL 2 – Post Harvest Management and Value Addition

2. Quality Control and Analytical Laboratory:

The **Quality Control and Analytical Laboratory** was conceptualized in 2019 with technical support from **Indian Institute of Plantation Management, Bangalore (IIPMB)** and was proposed to be setup at Bio Resource Development Center (BRDC), Upper Shillong, a Govt of Meghalaya R & D Institution under Science & Technology, Planning Department.

The machineries namely 1) High Performance Liquid Chromatography 2) Gas Chromatography Mass Spectrometer/MS 3) Inductively Coupled Plasma Mass Spectrometer 4) Microwave Sample Digester 5) Automated Solid Phase Extractor 6) Bio Safety Cabinet Class II Type B2 7) UPLC-MS/MS and other machines etc. have been received in good condition at BRDC and installation to commence after the Lab Infrastructure is complete.

Plate 18 (A-D): Machineries received in Good Condition for Quality Control Lab

VERTICAL 3 – Logistics Marketing and Branding

1. Transport Vehicle:

As part of the initiative to support farmers and improve agricultural logistics, the project procured four Tata Yodha 4x4 pick-up transport vehicles. These vehicles are intended to provide affordable and efficient logistics services, enabling farmers to transport their produce and goods to markets or their chosen destinations.

Plate 19: Tata Yodha Pick up for logistics service in the Cluster

This initiative is a significant step towards enhancing the agricultural value chain by addressing one of the critical challenges faced by farmers—transportation.

Plate 20: Transportation of Seeds and Biofertilizers by IVCS (CBOs) under the project.

Annual Work Plan & Budget for FY 2023-24

AUDITORS' REPORT
ON ACCOUNT OF
MEGHALAYA BASIN MANAGEMENT AGENCY
SCHEME - CLUSTER DEVELOPMENT PROGRAMME - NATIONAL HORTICULTURE BOARD
(TURMERIC CLUSTER)
MSHFCS : UPPER NONGRIM HILLS : SHILLONG

We have examined the attached Balance Sheet as at 31.03.2024 and the annexed Income & Expenditure Account and Receipts and Payments Account for the period from 01.04.2023 To 31.03.2024 of **MEGHALAYA BASIN MANAGEMENT AGENCY : SCHEME - CLUSTER DEVELOPMENT PROGRAMME - NATIONAL HORTICULTURE BOARD (TURMERIC CLUSTER) : MSHFCS : UPPER NONGRIM HILLS : SHILLONG** which are in agreement with the registers and statements produced before us by the Corporation. This Financial statement are the responsibility of the Management. Our opinion is to express the opinion on these financial statements based on our Audit.

We conduct our Audit in accordance with the Auditing Standard Generally Accepted in India. Those standard require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement are free of materials misstatement. We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of the Audit. In our opinion, proper books of account have been kept by the above named unit so far as appears from our examination of the books, and proper documents adequate for the purposes of audit have been received by us. We believe that our Audit provide a reasonable basis for our opinion.

We have the following observation to make :

In the following cases, total claim from National Horticulture Board (NHB) exceeds the percentage share as per Budget but the same is within the maximum claim :

Sl No	Heads	Claim as per Accounts	Percentage Share as per AWPB	Excess Claim
1	Advance for Area Expansion - Seed Spices and Rhizomatic Spices	2400000.00	720000.00	1680000.00
2	Quality Control Analysis Lab	20000000.00	11472359.00	8527641.00
TOTAL		22400000.00	12192359.00	10207641.00

Subject to the above observation and to the best of our information, and according to explanations given to us, the said accounts give a true and fair view :

- in the case of the Balance Sheet, of the state of affairs of the project as at 31st March 2024.
- in the case of the Income and Expenditure Account, the excess of Income over Expenditure / excess of expenditure over income of its accounting period ending on 31st March 2024.
